AFTER 8 WEEKS

WHY IS THIS CREAM SO EFFECTIVE?

The Intensive Anti-cellulite Treatment is the result of years of scientific research by Zepter R&D in Switzerland. It uses the most **innovative** and **efficient "Swiss made"** active ingredients to visibly **reduce the "orange peel"** look, drain, soothe and firm the skin.

HOW DO THEY ACT?

Soy isoflavones inhibit the formation of new adipocytes and trigger the breakdown of fat; **Synephrine** stimulates **fat loss** and increases the metabolic rate; **Caffeine** stimulates the fat breakdown; **L-Carnitine** contributes to the oxidation of fats and is a **significant factor in fighting cellulite**. **Pepha®-Tight** has both instant and long-term firming effect.

WHAT ARE THE MAIN EFFECTS?

From the very first application skin is renewed. The **orange-peel** look is visibly **reduced**, the **excess of water and puffiness** are **drained**, tissues are **toned**, skin is **smooth and moisturised**.

IS IT A FAST & EFFECTIVE TREATMENT?

Up to 4.6 cm less on thighs after **2 months**. Its application needs no special massage, and the product is absorbed rapidly by the skin.

DOES IT WORK WITH EVERY WOMAN?

Scientific tests performed on 44 participants over a 2 month period show that all the participants had results with the best effects showing after 2 months.

WHY IS IT SO RELIABLE?

Its effectiveness and success are based on **real, visible results** with an **exclusive formula made in Switzerland**.

Say **"NO"** to cellulite! Say **"YES"** to your new body
