

OMI MEDALLION pulsed electromagnetic device

Portable PEMF medallion for localized therapy and to stimulate acupuncture and chakra points.

Description

High quality PEMF therapy device designed for localized therapy. The device emits continuous 8 Hz output signal. Comes with a leather cover and works with 500 mAh battery (rechargeable with micro USB cable - charger or micro USB cable not included). Diameter: 7 cm (2.76 inch). Materials: plastic, stainless steel.

Recommendation

The product provides PEMF treatment on the targeted area and can stimulate acupuncture and chakra points. The pulsing magnetic field promotes the body's own regeneration processes and helps:

- ✓ to improve your physical and mental well-being,
- ✓ to increase energy and vitality,
- ✓ to have a better general mood.

Advantages

Completely safe, not painful to use, and there are no known side-effects. Simple to use, no training required. Durable and easy to clean. Portable, you can use it whenever and wherever you need it.

Instructions for use

The product is designed to be easy to use with no professional experience required. Just touch the metal parts on both sides of the device for a few seconds to turn on/off the medallion and then place it onto the desired area you wish to treat.

How it works

The gentle magnetic fields produced by our device induce electrical current inside the body that helps to restore the blocked ion flow and stimulates regeneration processes.

Packaging contains

PEMF Medallion, leather cover, wrist strap and user manual.
