

VETERINARY CARE

BIOPTRON is an ideal medical treatment for pets, ensuring fast and effective healing of common problems such as dermatitis, wounds, scars, infections and diseases which can cause discomfort.

Specifically, BIOPTRON ensures effective pain relief for your pets. On top of that, pets enjoy light therapy because they are attracted to both light and color.

VETERINARY CARE FOR HOME AND PROFESSIONAL USE

BIOPTRON HYPERPOLARIZED LIGHT IS ALSO RECOMMENDED AND SUCCESSFULLY USED IN VETERINARY MEDICINE, IN PROFESSIONAL AND HOME CARE OF ANIMALS

CASE STUDY 1:

BIOPTRON'S EFFECTIVE USE IN THE COMPLEX WOUND HEALING OF HORSES

The images below are of a two-year-old horse. The wound seen here was one day old when treatment commenced with BIOPTRON light therapy. The course of treatment ended 7 weeks later with comprehensive results.
